Padma Bridge to usher in urban revolution

By Anwar Hossain

Published : 25 Sep 2020 09:58 PM | Updated : 25 Sep 2020 10:09 AM

The stunning landscapes on the both sides of the country's first-ever international standard expressway, Dhaka-Mawa-Bhangra Expressway, connecting the capital with the southwestern regions via Padma Bridge, has opened a new door to urbanisation, industry insiders said.

Housing projects are on the rise surrounding the 55-kilometre expressway from Dhaka's Keraniganj to Mousauganj's Mawa. Industry insiders hope that once the Padma Bridge opens the housing industry will also boom on the other side of the River, from Jajira to Bhangra in the future.

Housing entrepreneurs said, with the construction of the Padma Bridge underway, people living in these areas have begun to earn more and it will continue to increase. With an income on the rise, people will invest in housing for sale in future, they added.

The Padma Bridge has created huge potential for the real estate industry, said Alamgir Shamzul Alamgir, President of Real Estate and Housing Association of Bangladesh (REHAB).

"The potentiality for land development projects to build a beautiful and modern city is now a big dream and soon it will spread on the other side of the river too. In fact, new factories will rise on the both sides (of the bridge) due to the (new) connectivity, thus increasing accommodation demand," he added.

He said the bridge will change the lives of people in the southern districts and increase their income.

Medium Rectangle 3

The REHAB president suggested for buying land from only the renowned developers since many new companies are doing business by fooling people.

"Before investing in housing, check all necessary documents properly," he advised.

Besides, the Padma Bridge also opens the investment opportunity for expatriate Bangladeshis, hailing from Loughjoe and Shapoddikan upazilas of Munshiganj due to a possible boom in housing industry.

Alamgir, from Ekuria, old this correspondent that, "Price of a piece of land was Tk 2-3 lakh per Katha a couple of years ago, which now rose to Tk 15 lakh."

"Roadside land price is even higher. All thanks to the Padma Bridge," he said.

Meantime, Keraniganj, a neighbourhood of capital Dhaka, is turning to a model city thanks to the construction of the Padma Bridge with developers setting up new buildings.

Locals said both private and public organisations are building new establishments and high-rise buildings.
